## Instructor Comments

**Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?**

- As I mentioned, this was my first and only linguistics course, so some lectures were confusing and hard, but once I had recitation everything cleared up and I understood it. Alicia was a great teacher and helped me understand the topics much more clearly
- Alicia was very approachable and open to any questions. The recitation was informative and helped me better understand the material.
- I would recommend doing more worksheets in class because they helped a lot.
- Alicia took a lot of time to go over specific examples and address questions.
- Recitation was one of my favorite parts about Language and Mind. Students were always engaged, got great feedback on assignments, and questions were always answered. It was very useful to give questions after Wednesday's lecture, since the structure of recitation was made more fluid. Alicia is also very knowledgeable on the subject and accessible in and out of class.
- TA was great, probably would have failed every assignment and test without recitation section.
- Going over information taught in the lectures and explaining in details.
- The handouts given during recitation helped condense a lot of the information that was on the slides and I found myself getting lost in. This better helped me organize the information and understand it better.
- +: Patient to answer questions again and again.
- -: Not very good at explaining abstract concepts; her usages of analogies or examples are sometimes counter-productive.
- Nothing. The instructor made everything unclear in lecture clear in recitation.
